Jack Hannon

hi@jackhannon.net · linkedin.com/in/jackphannon · jackhannon.net

Marketer who builds and launches his own software. I design, ship, and grow consumer apps for creators and communities, and I'm looking to do growth, community, or product marketing for an early-stage consumer or AI software company.

PRODUCTS I BUILT AND MARKETED

VT Gym Tracker · Founder — Oct 2024 – Present

- Built and launched an iOS app and home-screen widgets showing live crowd levels at Virginia Tech's McComas Hall and War Memorial gyms.
- Grew to 4,000+ users with $0 in paid spend through word of mouth and App Store optimization, positioning it against the lower-rated official Virginia Tech app; holds a 5.0 rating.
- Designed an in-app sponsorship and ad system to sell placements directly to Blacksburg gyms.

Orbyt · Founder — Feb 2025 – Present

- Launched a short-form video app for creators and community managers on an open, decentralized social network.
- Running a beta with about 300 users.
- Rebuilt the product in 2026 around community feeds and member-led moderation.
- Shipped creator tools including audio looping and automatic clip-to-beat editing to cut editing time for short-form posts.

MARKETING EXPERIENCE

Vicino · Marketing Intern — Nov 2025 – Feb 2026

- Worked directly with the founder to define the product vision; wrote internal white papers, the mission statement, and the brand guide.

Yik Yak · Campus Ambassador, Virginia Tech — Feb 2022 – Feb 2024

- Ran the Virginia Tech page (5,500 followers); built its visual identity and reusable post templates.
- Produced campus-focused and co-branded posts with Red Cup VT.
- Hired by three campus creators to design visual identities for their pages.

ADDITIONAL EXPERIENCE

UPS · Customs Brokerage Representative II — Oct 2026 – Present

Christiansburg Parks and Recreation · Recreation Assistant — Oct 2023 – May 2025

EDUCATION

Virginia Tech · B.A. Advertising, Minor in Organizational Leadership — May 2025

- Dean's List
